HIGH SCHOOL,

Elmbank Street.

(Founded in the 12th century.)

The school is one of the oldest institutions of the city, but the exact date of its origin is unknown; it is certain, however, that it was in existence before the University, for in records prior to the foundation of the latter, the Doctor of the Grammar School is honourably mentioned.

THE GLASGOW AND WEST OF SCOTLAND TECHNICAL COLLEGE.

The College was established in 1886 by an Order in Council amalgamating several old institutions, notably Anderson's College, founded in 1796, and the first technical college in the kingdom; the College of Science and Arts, the successor of the first Mechanics' Institute; the "Young" Chair of Technical Chemistry; Allan Glen's Institution; and the Atkinson Institution. The College, as now constituted, offers complete courses of instruction of University standard in pure and applied science, and is specially designed to give the most suitable education to students intending to enter an industrial profession or trade. The complete course of study extends over at least three years, but students are at liberty to enter for any less period. The instruction in both day and evening classes is made as practical as possible, and there are fully equipped laboratories in the departments of physics, chemistry, technical chemistry, metallurgy, mechanics, motive power engineering, electrical engineering, biology and bacteriology. The museums contain several important collections, and the library consists of about 10,000 volumes, including many valuable works. The reading room is provided with the current issues of the principal scientific and technical journals. The diploma of the College carries with it the title of "Associate of the Glasgow and West of Scotland Technical College," and associates are eligible for admission to the final examinations for the degree of B.Sc. in Engineering of Glasgow University after attendance upon prescribed classes in the University for at least one session. There are many valuable bursaries and scholarships in connection with the College.

A PURELY MUTUAL OFFICE,

whose Bonus Record is good, and whose Reserves and Financial Position give promise of Favourable Results in the future.

RECENT FEATURES.

Minimum Rates—With Profits.—Under this Scheme (as explained in the Prospectus) the assured has the full benefit of Participation in the Profits although called upon to pay only a Minimum Rate of Premium. For example, at age 30 the Whole-Life rate is only £2 : 3 : 1, and the rate for an Endowment Assurance payable at age 60 or death, is only £2 : 19 : 9.

Term Assurances with Option.—A person aged 30 may insure for £1000 under this Table FOR FIVE YEARS at an Annual Premium of £13 : 5 : 10. When the Five Years are about to expire, **or at any time previously,** he may elect to continue the Assurance under any of the ordinary tables, **without further medical examination, and whatever may be his state of health,** at the Premium corresponding to the age he has then attained.

New Pension Assurance Scheme.—A defect of most Pension Schemes is that, should the Investor die before attaining the specified age, or after having drawn the pension for only a short time, the contributions go for little or nothing, and heavy loss is entailed on his estate. Under the new scheme, these defects are entirely obviated.

Gift Policies for Children.—The benefit of insurance may be secured **at a very moderate cost** by beginning the payments early in life.

Loans granted in connection with Life Assurance, on *Life Interests, Reversionary Interests,* and other approved security.

Reversionary Interests are also purchased on a system allowing the right of repurchase for a limited term.

The Leadenhall Press, Ltd., manufacturers of the well-known STICKPHAST PASTE, are now manufacturing various Grades of

"FIXOL" PASTES

IN BULK FOR MANUFACTURERS.

The "FIXOL" Pastes are all scientifically prepared to exact formulae, and are suitable for use in all climates.

FREE SAMPLES.—A selection of Samples will be sent free on application; after which a 28-lb. keg of the Grade chosen will be forwarded, carriage paid, at the nominal charge of 3/6, the usual price for 28 lbs. being 5/-.

SOME OPINIONS.

Extract from the "LANCET."

"FIXOL. We have given this excellent Paste considerable practical trial with very satisfactory results. It consists of a modified Starch, manufactured in a special manner, which renders it glairy and, at the same time, tenacious, and is very clean to use. The Paste is quite permanent, and contains an agreeable antiseptic, and offers great advantages where large quantities are in constant use, as in newspaper offices and other places where labelling is required."

Messrs. CARTER'S SEED CO., write:

"We beg to state that 'FIXOL' gives us every satisfaction, and we are now using it in lieu of glue for making up our card-board boxes."

Messrs. CROSSE & BLACKWELL, Ltd., write:

"'FIXOL' is the best medium we know of, and we propose to continue its use."

Messrs. SALMON & GLUCKSTEIN, Ltd., write:

"We have used 'FIXOL' for some considerable time for labelling purposes, and it has given us great satisfaction."

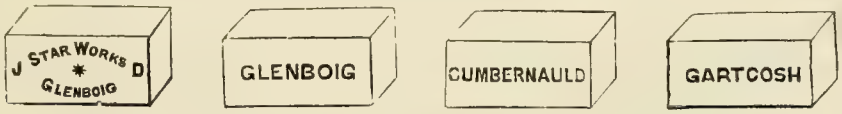
The Glenboig Company are the Sole Makers of the "GLENBOIG" and "STAR GLENBOIG" brands, which stand first among Fire Bricks, for the construction of all kinds of furnaces subjected to the highest heats and most sudden changes of temperature.

The use of these Bricks is found to be economical in districts of England where Fire Bricks are made and sold at half the price of the "Glenboig" brand; but how much more economical must they be when shipped abroad and where both qualities bear the same charge for carriage.

The "GARTCOSH" brand is largely used. The Company purchased these works for the purpose of meeting the demands of buyers who require a cheaper Fire Brick of good quality, and they offer it with confidence, knowing that it is unsurpassed by any other Fire Brick made in Scotland, excepting "Glenboig" alone.

All articles manufactured by the Company bear one or other of the undernoted Trade Marks—



Purchasers are recommended to see to it that the brand purchased is really stamped on the Goods, and not only on the lips or business paper of the seller.

GAS RETORTS.—The great number of Glenboig Retorts now in use in the principal Gas Works at Home and Abroad is the best evidence of the high estimation in which this brand is held by Gas Engineers, who know the importance of using "Retorts that can be depended upon."

THIS SCHOOL was founded on the lines of the great Public Schools of the South, and is the only one of its kind so far north. It possesses a good situation and excellent buildings, on gravel soil, with up-to-date drainage (inspected annually). The climate and surroundings of Inverness need no special praise. There are good Playing-fields, Gymnasium, Workshop, Fives Courts and Swimming Bath; also an Isolated Sanatorium.

Boys are taken from 8 to 18 years of age and prepared for Army, Navy, University, and other careers. Special tuition in extra languages, European and Oriental.

Careful attention is paid to the food and comfort of all, especially in the case of delicate boys.

3½ Miles from Port of Menteith Station, 4½ Aberfoyle, 6¾ Callander, and 15, Stirling.

THIS HOTEL has been greatly enlarged and improved, and is beautifully situated on the margin of the famed Lake of Menteith, where there is excellent Fishing, while the beauty of the Lake and Mountain Scenery cannot be surpassed. There are three wooded Islands on the Lake—the largest contains the ruins of an ancient Priory, and is rendered famous in history as the early home of Mary, Queen of Scots, and where her "Bower" or "Child Garden" is still to be seen. (This ancient relic of the unfortunate Mary is annually visited by large numbers of Tourists). One of the lesser Islands contains the Castle of the renowned Earls of Menteith, in ruins.

BOATS and BOATMEN for Fishing, or Boats for Pleasure, to be had at Hotel. Also a MOTOR YACHT for visiting the Island of Inchmaholme.

CARRIAGES AND MOTOR CAR FOR HIRE.

Lanemark Coal Co., Limited,

NEW CUMNOCK, AYRSHIRE.

TRADE MARK.

TELEGRAPHIC ADDRESS: "LANEMARK, NEW CUMNOCK."
TELEPHONE: No. 4 NEW CUMNOCK.

Can offer their superior and well-known House, Gas and Steam Coals and House Bricks, delivered in wagons at any Railway Station in England and Scotland; or f.o.b. at AYR, TROON, ARDROSSAN, IRVINE, GREENOCK, Glasgow, Grangemouth, and Bo'ness.

— **Prices, &c., on application.** —

THE FOLLOWING ARE DETAILS OF ANALYSIS:—

LANEMARK CANNEL COAL.

Gas per ton of Coal	**10,833 cub. ft.**
Illuminating power of Gas in Standard Candles	**28.40 candles.**
Coke per Ton of Coal	**1,306.66 lbs.**
Carbon in Coke	**88.58 per cent.**
Ash in Coke	**10.80 per cent.**

LANEMARK COKING GAS COAL.

Gas per ton of Coal	**10.333 cub. ft.**
Illuminating power of Gas in Standard Candles	**18.29 candles.**
Coke per ton of Coal	**1,340.20 lbs.**
Carbon in Coke	**95.43 per cent.**
Ash in Coke	**3.39 per cent.**

— **REMARKS.** —

This is a first-class Coking Coal. It yields on a practical scale a large volume of Gas of good quality, together with **12 Cwts. of Coke that can hardly be surpassed in quality.** The percentage of Water in the Coal and the amount of Sulphur in the Gas are both about the average.

In obtaining these results, two tons of the coal were distilled—without an exhauster—in three successive charges in two sets of three clay retorts each, and the Gas was collected for examination in a separate holder.

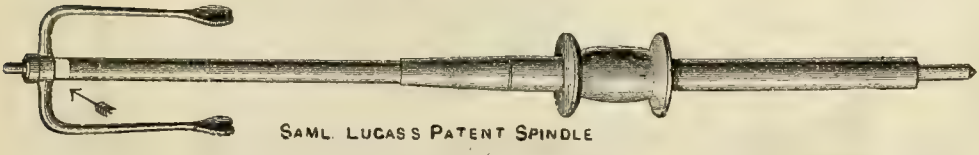
Crucible Cast Steel Spindles and Flyers

Of every description for Roving and Spinning Jute, Flax, Cotton, Silk, and Worsted.



The great improvement in this Spindle is a collar hardened and fixed under the screw, where shaded black on the sketch shown, which can be replaced; and spindle worked down at the shoulder can have this patent collar put on at a small cost. The advantage of this collar is to prevent the shoulder at the bottom of screw becoming untrue, by the flyer coming down on shoulder when working, the collar being equal in temper to the flyer, which at present is not the case.
